**Notifications Where Response is under Process**

There are **60** notifications issued in July 2014 where the products mentioned are of India's export interest. Letters have already been sent to the respective stakeholders; however, the responses from the stakeholders are awaited. We are following up on these notifications.

**List of Notifications**

Sl.No	Document	Date	Members	Product	Summary
1.	G/TBT/N/BRA/594	1/7/2014	Brazil	Pharmaceutical	The Draft resolution mainly deals with the revision of the certification of Good Practices in Bioavailability in medicines. The new requirements include the mandatory certification of the research centers that manufacture medicines. It mandates that the research centers should be certified by the Brazilian Health Surveillance Agency-ANVISA. We are in discussion with stakeholders to look at the possibilities of preparing a draft response on the same.
2.	G/TBT/N/CAN/294/Add.2	1/7/2014	Canada	Pharmaceutical	The Prescription Drug List is a list of medicinal ingredients that when found in a drug, require a prescription. It does not include medicinal ingredients that when found in a drug, require a prescription if those ingredients are listed in <i>Controlled Drugs and Substances Act</i> Schedules. The addendum notified the revision of listing of Lovastatin on the Prescription Drug List (PDL). The details of the

					notification were sent to respective stakeholders including PHARMEXCIL for comments.
3.	G/TBT/N/CAN/417	1/7/2014	Canada	Drugs	The Draft Regulation intends to provide clarity with respect to record-keeping requirements for drugs. The amendment sets a requirement for all manufacturers of new drugs to keep this information for at least seven years from the date the records were established. It is important to note that other provisions in the Regulations may place further record keeping requirements on the manufacturer, but seven years is the minimum. The details of the notification have been circulated to stakeholders for comments.
4.	G/TBT/N/CAN/418	1/7/2014	Canada	Food	The Multi-sector Air Pollutants Regulations (“proposed Regulations”) would impose mandatory national performance standards on specific sector/equipment groups, in order to establish nationally consistent emissions standards. Within the proposed Regulations, performance standards for the cement sector and two equipment types i.e. gaseous-fuel-fired non-utility boilers and heaters are included. The details of the same have been circulated with the

					respective stakeholders for comments.
5.	G/TBT/N/USA/904/Add.1	1/7/2014	United States of America	2402-Cigars, cheroots, cigarillos and cigarettes, of tobacco or of tobacco substitutes., 2403-Other	The Food & Drug Administration, United States, have proposed amendments on the regulation of cigars. It also includes the regulatory approach to electronic cigarettes and other noncombustible tobacco products, and compliance dates for certain provisions. The details of the same have been circulated to stakeholders.
6.	G/TBT/N/USA/910	1/7/2014	United States of America	Chemical substances	The Environmental Protection Agency (EPA) of United States has issued a notification regarding updating of chemical identities for significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA). These are for 36 chemical substances, which were the subject of pre-manufacture notices (PMNs). The details of the same have been sent to stakeholders.
7.	G/TBT/N/KOR/505	2/7/2014	Korea, Republic of	Cosmetics	The Republic of Korea has issued a draft regulation that notifies the proposed amendments to the Cosmetic Act. The amendments include the requirements for colour that is used for face paints and body paints. It establishes a detailed basis to support companies compliant with Good Manufacturing Practice (GMP). The details of the same have been

					circulated to stakeholders.
8.	G/TBT/N/ARE/221	3/7/2014	United Arab Emirates	Water fixtures	The regulation is regarding the Conformity Scheme concerned with the Green Labeling Scheme for water fixtures. It covers common types of water fixtures such as showerheads, faucets, water closet and urinal flush systems, aside from setting "maximum flow rate per minute" for covered water fixtures. Apart from that the scheme also requires that water fixtures be labeled with the green label showing details such as water consumption and efficiency level for consumer's information. The details of the same have been circulated to stakeholders.
9.	G/TBT/N/CHE/177	3/7/2014	Switzerland	Measuring instruments for electrical energy and power	The notification is regarding the current Swiss regulation on measuring instruments for electrical energy and power covers active electrical energy meters, reactive electrical energy meters as well as inductive and capacitive instrument transformers.
